Provided for your review is my accountability for Walker River Paiute Tribe in regards to Air quality and the Outdoor quality deficiency EPA is aware of since WRPT reported the monitor shut down and revised workplans or scope of work.

The overlapping of resources expected of tribes to identify, pursue and secure funding is noted with continued reporting that may have gone unnoticed.

WRPT has established baseline data and in the process of identifying pollutants and contaminants harmful to our community.

WRPT continues to do education, informal committee meetings, pollution prevention plans, focused on resource efficiency and fiscal opportunities.

WRPT is challenged with too communication stopgaps and WRPT does reach out to community and program responsibility inhouse.

I failed to add our Washington DC contacts throughout my employ, regarding supporting the National Ambient Air Quality Standards revision and the changes to climate change proposed in DC EPA office.

Should you have any further questions, please contact Amber Torres, Chairman since I am on lay off status.

Cynthia Oceguela  
Walker River Paiute Tribe
